***EDUCATION***

University of Texas at Austin, 2001

B.A., Economics  
Math and Philosophy minors  
Business Foundations Certificate

***PROFESSIONAL EXPERIENCE***

*EmployStats*, Research Support Team Director and Senior Analyst, January 2001 to present

*Economic damage models*

Utilize publicly available data and current economic literature to design models of earnings based economic damages in cases involving Personal Injury, Wrongful Death, and Wrongful Termination. These types of economic damage losses include wages and salaries, fringe and legally required benefits, 401k and pension retirement plans, stock options and stock purchase plans, and household services.

*Analyzing economic damages*

Use various information sources such as court documents, depositions, financial documents, and company provided handbooks to create the foundation for the economic damage analysis.

Research various case-specific economic damage issues.

Design questionnaires to retrieve all needed information and documents from clients regarding their cases.

Collaborate with various Ph.D. economists to create expert economic damage reports.

*Management*

Manage various economic damage and computer programming projects. Provide oversight of and leadership for all internal program and administrative initiatives.

As a member of the senior management team, promotes a level of management authority and autonomy that increases organizational effectiveness.
